

MISTY VALAER

Misty provides amazing support to the BSA team and is an essential part of the billing department. She is always willing to work on special projects or fill in as needed. Misty has also played a key role in the implementation of several new department processes. She is client-centered, and takes time to proactively reach out to clients when information is missing, in addition to supporting clients with the sliding scale application.

Thank you, Misty,
for going above and
beyond on a daily
basis!
